**Operating and Care Instructions**

**Operating**

1. Remove the bottle from the Libman Freedom® Spray Mop and fill the bottle with your desired solution.
   a. If the bottle is hard to remove, fill it with hot water, let it sit for two minutes, and then pull bottle out.

2. Prior to the first use it may be necessary to prime the pump with liquid in order for it to spray.
   a. With the bottle removed from the mop look at where the bottle and mop join. You will see a white plastic cylinder (pictured to right).
   b. Using water or your cleaning solution fill the white cylinder with liquid.
   c. Squeeze the trigger twice and reinsert the bottle.

3. With the bottle reinserted squeeze the trigger and begin to mop.

**Care Instructions**

**Freedom® Spray Mop**

- Do not use on unfinished, oiled or waxed boards or unsealed tiles
- Do not use with waxy chemicals. Waxy chemicals can build up over time and clog the nozzle.

**Microfiber Pad**

- Do not use bleach
- Do not use fabric softener
- Machine or hand wash in cold water
- Hang to dry

**Libman Guarantee**

Libman isn’t just a company, it’s our family name. We take personal pride in our products and stand behind them. That’s why we have been the cleaning experts since 1896. If you’re not completely satisfied, simply call 877.818.3380
